DESERVING PRAISE.

Senator Stewart ordered 500 copies of the Rocky Mountain News sent to persons in Nevada until election and accompanied the order with a check for \$250. The News, which is a large and ably edited paper, is foremost in the ranks of free coinage advocates. It supports General Weaver, the only free coinage candidate in the field for President, and paints the Wall Street candidates in their true colors. It says there is too much at stake in the present crisis of our history for men who comprehend the trend of things to be diverted from what they know to be right to serve the petty schemes of political spoils hunters in either one party or the other. The final degradation of silver is threatened and its depreciation to a price that will stop all mining. The force that is doing this is bearing with a heavy hand upon the nation's producers and upon the millions whose labor creates wealth. Hence it behooves those who realize the peril and have ability and influence to come to the front and by precept and example swell the volume of an independent popular movement that shall call a halt to the aggressive advance of a rapacious power that has become dangerous because of measureless wealth and legalized privilege.

The News is edited by ex Congressman Patterson of Colorado, who was among the first prominent men to leave his party and join the revolt against the gold trust. All honor to him and to ex Congressman Wren, Senator Stewart and other prominent citizens of our own State for their manly and independent action in the present crisis when the contest is for home and fireside against capitalistic greed. Credit is also due the press of Nevada, which, with very few exceptions, has taken a bold and decisive stand against Wall Street aggressions, and to our sturdy citizens—farmers, miners, professional and business men—for their determination to free themselves from the yoke of partisanship and placing the interests of the State above party success and hope of getting office. It requires intelligence and moral courage to cut loose from party associations and the people of Nevada are proving that they have both and that reason, not prejudice, shall be the guide of their political action in the present campaign.

Nevada, like Colorado, is true to itself this year and will prove that it is consistent in its demand for free coinage by electing every candidate on the Silver ticket.

The Silver Convention of Storey county pledged the support of its nominees to Weaver and Field for President and Vice President of the United States and to Stewart and Newlands for Senator and Representative respectively. That convention nominated Colonel E. D. Boyle for State Senator and he accepted the nomination. The Stradler, whose object at present seems to be to make others appear as inconsistent as himself, asserts that Colonel Boyle is a Harrison man, though pledged to support Weaver, thereby impugning his integrity.

The Stradler hopes to injure General Fowning by encouraging anti-silver men to support him on the ground that he is at heart a Harrison man. As the Stradler advocates the election of Bliss, Farrell and Cleveland because they are for Harrison, and of Stewart and Newlands because they are for Weaver, and its editor is a pronounced Cleveland man, who, if sincere when he talks, does not believe what he writes, it ought not to make much difference with thinking people whether it is for or against a candidate for office.

The People's party of New York held a State Convention at Syracuse last Tuesday and nominated Presidential Electors and a State ticket. The Chairman admitted that at the present time the Democrats and Republicans are dominant in the State, but declared that the People's party had come to stay and would soon put a formidable figure in New York politics.

The People's party filed its petition for a place on the municipal ticket in San Francisco last Tuesday. It was signed by 6,000 persons. Petitions were also filed for the Senatorial and Assembly tickets.

The combined majority of the Populists and Democrats in South Dakota in 1890 was 4,172. Both parties are now supporting a fusion ticket and the electoral vote of the State will go to Weaver.

Republican Ratification Meeting—Examination of Commissioner Peck—A Conference.

Republican Ratification Meeting.

New York, September 28.—A Republican ratification meeting was held at Cooper Union tonight. Among the speakers were Whitelaw Reid, Chauncey M. Depew and Thos. C. Platt. In the course of his speech Mr. Platt said:

"Our enemies have manifested much anxiety over the lively contest at the last National Republican Convention between friends of the different aspirants for the Presidential nomination. There is nothing to worry about. Benjamin Harrison stands to-day as a representative of the grand old Republican party, the bearer of the flag of protection, reciprocity and honest money, and as such we pledge him united party and unswerving loyalty and faith. Despite the frantic efforts of Cleveland the Democratic party cannot go into this campaign under the lying banner of tariff reform. The Democratic Convention at Chicago would have no such milk and water principles, so it substituted the tariff for the revenue only plank. On that plank the Republican party joins issue with the Democracy."

Speaking of Federal elections Mr. Platt said: "There never has been a Force bill which was endorsed by the Republican party. The party, however, believes in a free ballot and a fair count, and that we will have. We fought for that right from Bull Run to Appomattox. We paid for that privilege \$5,000,000,000 and a million precious lives and in God's name we will fight for it as long as a single Republican remains alive within the limits of the American Union, be it in the State of Alabama or the State of New York."

Mr. Platt closed with the earnest admonition to Republicans to help with all their might to get every Republican voter out on election day.

Examination of Commissioner Peck. ALBANY, N. Y., September 28.—Commissioner Peck and Stenographer Rodgers appeared in Court again this afternoon. Attorney Meegan for the defense, asked that the indictment be sent back to the police court so the case can be regularly and legally tried. He said the secret action in the police court and before the grand jury on the part of the district Attorney was prejudicial to the defense. Defendant was prepared to establish his entire innocence when examined before Police Justice Guttman, but he was denied that right and the indictment was found, as deponent believes to embarrass him in his defense and disgrace him in the public eye, with a view to affect the results. Meegan said some of the grand jurors were incompetent and improper. District Attorney Eaton replied, arguing that the charge against Peck was a case the grand jury could competently consider. The case went over until Monday.

The Largest Gun Ever Made in This Country.

WASHINGTON, September 28.—The last jacket has been slipped over the breech of the great thirteen-inch rifle at the Washington Navy yard and the immense piece is now nearing completion. The gun will be the largest ever made in this country by built up progress. Its length is 40 feet; diameter at the breech an inch more than four feet, and tapers to the thickness of twenty-one inches at the muzzle. When finished the gun will weigh 168,000 pounds. It requires more than a quarter of a ton of powder as a load for one discharge, but that quantity hurls a shell weighing 1,000 pounds, at a distance of twelve or fourteen miles, at the extraordinary velocity of 2,100 feet per second. The gun has been six months in construction.

A Conference.

New York, September 28.—The Special Committee of the Anti-Snappers, New York City district organization, had a long conference with the Democratic National Committee men this afternoon. At the end of the session the Anti-Snappers had nothing to say, but at headquarters it was said the discussion was as to how to prepare a thorough organization of Democratic voters in the City of New York, together with such incidental demonstrations as might be necessary to arouse enthusiasm and stimulate them to greater activity. It was learned on the outside that the question of nominating a third ticket in the city was the principal one discussed. The Committeemen could not be induced to give assent, and the Anti-Snappers finally agreed to consult with their leaders. Another meeting will be held Friday.

GREENSBORO, N. C., September 28.—General Weaver and Mrs. Lease addressed 500 people here to-day and were listened to with respectful attention.

Prize Fighters Arraigned.

PORTLAND, Or., September 28.—William Maher and William Smith who were jointly indicted for engaging in a prize fight at the Eastime Club were arraigned in the State Circuit Court to-day and pleaded not guilty. The trial was set for November 3d. Jack Dempsey, Billy Hennessy, Jos. Taylor and Gus Herget, who were indicted on the same charge, also pleaded not guilty, but the case will not be set until the principals have been tried.

The Same Old Game.

CARSON, Nev., September 28.—In the ladies' chariot race at the Di-erick Fair to-day, the winning team, driven by Mrs. Collier, after completing the mile dash became unmanageable and rushed around the track another lap. The lady hung on and struggled with the horses until the wire was reached when the animals were stopped, and the driver sank prostrate from exhaustion in the bottom of the chariot. The event caused considerable excitement.

Will Build Two New Ships.

WASHINGTON, September 28.—Under authority of the last naval appropriation bill providing for the construction of a 9,000 ton battle ship and an 8,000 ton armored cruiser, proposals were to-day issued for their construction. The battle ship must have a speed to average sixteen knots an hour and the cruiser twenty. The vessels must be completed within three years from the date of contract.

A Ship Burning.

BOSTON, September 28.—The steamer Watertown, Captain Alley, which left here to-day for Lynn, took fire shortly afterward and is still burning. All on board were safely rescued except Mrs. Mary Carter, wife of the steward, who jumped into the water, striking her head on the propeller and sustaining fatal injuries. Her husband was badly burned.

A Steamer Released.

VICTORIA, B. C., September 28.—The steamer Mexico has brought news that the United States District Court at Sitka has released, under bonds, the British steamer Quaquiam seized by the revenue authorities some months ago.

The importance of purifying the blood cannot be overestimated, for without pure blood you can't enjoy good health. At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens Peculiar and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

MORE POLITICAL CATECHISM.
Pertinent Questions and Plain Answers.
Question.—Who says that the tariff is the paramount issue in the present campaign?
Answer.—The sham oracles of the Democratic and Republican parties who are subsidized by the gold bug money kings.
Q.—Does the discussion of the tariff by these paid emissaries of the goldbugs arouse any enthusiasm among the miners and farmers?
A.—No, the miners and farmers fail to discover where their share of the tariff comes in. Twenty years ago silver as measured with gold was worth \$132 per ounce, to day it is worth less than 84 cents. Forty years ago the farmers owned five-eighths of all the property in the United States, to-day they own less than one-fifth and what little property is credited to them is generally encumbered with mortgages.
Q.—You say that the farmers' property is generally encumbered with mortgages. Where do you get your authority?
A.—From the United States census of 1890.
Q.—What is the amount of the mortgage indebtedness in Kansas and Illinois?
A.—It is more than five hundred and fifty million dollars.
Q.—What is the amount of interest for one year that the mortgages of these two States are credited with earning?
A.—An average of eight per cent or \$46,936,129.
Q.—How was the most of this interest paid?
A.—By new notes and an increase of the mortgage indebtedness.
Q.—To what cause do the paid emissaries of the goldbugs ascribe the low price of silver as measured with gold?
A.—To overproduction.
Q.—As a matter of fact how does the ratio of production of silver with gold compare with former periods?
A.—Prior to 1850 and for the three hundred and fifty years previous, the ratio of production was thirty-one ounces of silver to one ounce of gold, while for the year 1891, the year that the goldbugs claim there was such an enormous overproduction, the ratio of production was less than twenty-four ounces of silver to one ounce of gold.
Q.—What party in the present campaign has the courage to oppose the money kings and demand the free coinage of silver?
A.—The People's party.
Q.—What reason do the goldbugs give for opposing the free coinage of silver?
A.—They say it would impair our credit abroad.
Q.—How were the interests of the miners and farmers affected by the demonetization of silver?
A.—It resulted in the confiscation of more than fifty per cent of the value of the farmers' property and more than thirty per cent of the value of the miners' silver.
Q.—What excuse do the goldbugs give for this wholesale robbery?
A.—They say it was done to strengthen our credit abroad.
Q.—What do the farmers and miners think of this way of strengthening our credit with the Europ an money kings?
A.—They do not take very kindly to it; they have joined forces in the present campaign and prop se to show the money kings that the miners and farmers have some rights that even goldbugs will be bound to respect.
Q.—What is the rallying cry of the miners and farmers in the present campaign?
A.—General Wey r for President; the free coinage of silver and a home without a mortgage.
FARMER.
THE SAN FRANCISCO AND SALT LAKE RAILROAD.
The Articles of Incorporation to be Filed On Friday.
The San Francisco Report has the following:
"The articles of incorporation of the San Francisco & Great Salt Lake Railway have been prepared and will be filed this week. They were to have been filed last Friday, but it was decided to wait until this week, to give two well known Californian capitalists an opportunity to take part in the incorporation.
"As readers of the Report know, the San Francisco & Great Salt Lake Railway is already incorporated under the laws of the State of California, but the incorporation so far covers only a road between San Francisco and Stockton. Part of this is to be the main line of the road, and part will be practically a branch. The main line, as already published in the Report, crosses to the Sacramento side of the bay and of the San Joaquin near Black Diamond (New York Landing). On this part no incorporation papers have been filed. This is to be covered by the new articles, which will be for a road from the bay to the State line in the county of Lassen county. This is the main line, running through Sacramento and Oroville and by way of the North Fork of the Feather and Sierra Valley through Beckwith Pass.
"E. L. G. Steele of the Executive Committee of the new road's promoters, told a Report reporter this morning that the articles would be filed next Friday.
"By the time the new road is in operation it is probable there will be a steamship service between Salina Cruz and San Francisco, connecting by way of the Tehuantepec Railway with a similar steamship service between New York and Minatitlan. There are no indications at present that this steamship service will be anything other than an independent line, although it is probable that the Pacific Mail will make an effort to retain the command of the Pacific Coast trade. President Diaz's attitude insures the independence of the Tehuantepec Railway, however, so that the Pacific Mail cannot have a monopoly of that line as it has of the Panama Railway. The Tehuantepec Railway and ship competition, therefore, will give assurance of low through rates, while the San Francisco & Great Salt Lake Railway will give the low local rates necessary to distribute the goods imported, while at the same time giving exporters a chance to make something on their shipments."

FEARFULLY BEATEN.
Mike Caughlin, an Old Man, Waylaid Last Night.
While Mike Caughlin, an old man nearly 70 years of age, was on his way home shortly after 12 o'clock this morning he was waylaid and fearfully beaten about the head and face.
Low Gentry, the engineer at the electric light works, heard unusual sounds near the works and upon going to the door saw old Mike coming toward him with blood streaming from wounds in his head and face. He took the old man in and washed the blood off, but could ascertain nothing as to how the injuries were received. He then brought Mike up town and Dr. Lewis was summoned, who dressed the wounds, of which there were four or five on the head and two or three on the face.
It appears that Mr. Caughlin had been playing faro early in the evening and when he got, shortly before 12 o'clock, he drew out \$10 or \$15. There were two strangers, it is supposed, in the room when he pocketed his money and they followed him as he went out. He had gone a short distance past the electric light works when two men pounced upon him with the result as above stated. The money was not taken from him, however, and it is supposed that the robbers were frightened off by his cries before they had accomplished that much.
A young man who claims to have seen the would-be robbers as they were running away, says he could certainly identify one of them and possibly both. The officers are looking up to the case.
Mr. Caughlin is an old resident of Reno, having worked as a section boss on both the N.O. and V. & T. railroads, and is a sober man. His face presented a terrible sight, with one gash nearly two inches long on the right cheek and another on the left, with the blood streaming from the wounds in the head. From the appearance of the injuries it seems they were inflicted with some sharp instrument, for they appear more like cuts than bruises.
Third Day of the Ormsby Fair.
The following is from the Carson Tribune:
"This has been the gay's day of the week so far at the track, the local attendance being augmented by many citizens from the Comstock and Carson Valley. There were bicycle races, a chariot race, two running races, a pace and a trot on the programme for the day and interest and betting was lively on all the events.

Still Growing.
A glance at the map of Powmings Addition shows that with but very few exceptions all of the most eligible lots have been sold. Along the entire river front, or Riverside Avenue, there are only three corners left, while on Second street there are but four that are not sold. People wonder how it happens, but Reno keeps on growing just the same, and those who are still hunting bargains should buy a lot in Powmings Addition while lots are yet reasonable.
